+ TECHNICAL STAFF SERVICES

OUTSOURCED IT SERVICES
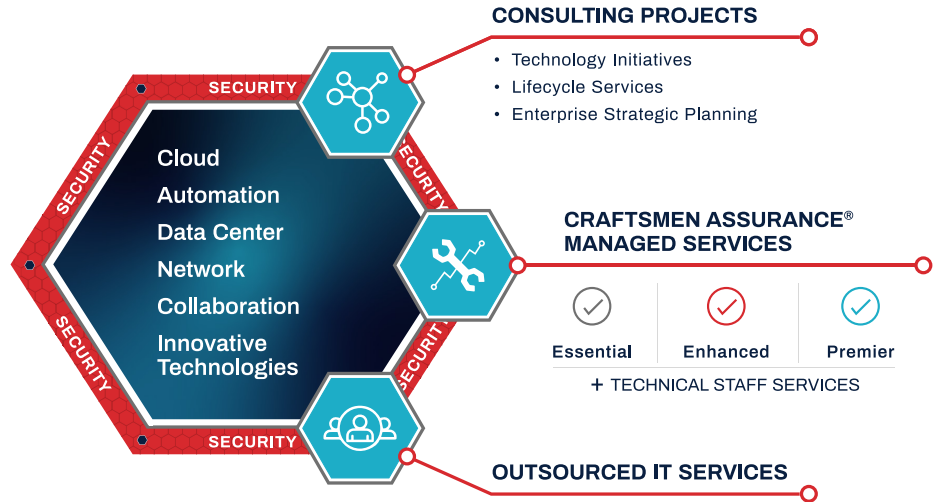

Craftsmen Assurance® Managed Services

Craftsmen Assurance provides ongoing, fixed-fee engagements. All of our services are available within a managed services engagement for a predictable level of spend. Let Craftsmen Assurance provide you with predictably of cost, flexibility to scale your team, and time to focus on the future.

Discrete Projects

Leveraging proven methodologies, every engagement can be customized to fit your specific needs on a discrete project basis and can include:

LIFECYCLE SERVICES
We provide an analysis of current system health, quarterly health checks, recommendations for remediation and optimization, and ongoing configuration compliance & software compliance services tailored to your industry's regulatory requirements.

TECHNOLOGY INITIATIVES
Our team of best-in-class engineers will execute a roadmap of transformative technology initiatives to make sure your systems get healthy and stay healthy.

ENTERPRISE STRATEGIC PLANNING
Working with NetCraftsmen means your team will have a partner to help develop a technology strategy that delivers business results.

Outsourced IT Services

Finding, hiring, and keeping quality IT staff can be a challenge, whether you're filling a skills gap or have an increased staffing need caused by IT infrastructure or security implementations. **NetCraftsmen Outsourced IT Services stand apart because every expert we place has been trained and tested to our standards of craftsmanship.** Our people possess a combination of capability, dependability, and loyalty that sets them above any temporary hire. They don't supplement your team. They become part of your team.

The NetCraftsmen Way

Our Approach

The NetCraftsmen Way truly sets us apart from our competition. The people, processes, and technology we bring to each project provide long-term, sustainable business outcomes for our clients.

PEOPLE

We are industry experts. Over 35% of our staff hold the highest-level IT infrastructure certifications in the industry. We consistently hire, train, and develop the highest-quality professionals in the industry and invest significant resources in providing ongoing professional development. And, our Craftsmen have more than technical know-how, we ensure our people can partner with clients, communicate effectively, and go the extra mile.

We are the right size organization. We provide a deep bench of top engineers and experts, without losing the personal attention and client-focused approach which is embedded into the NetCraftsmen culture.

PROCESS

TECHNOLOGY

PEOPLE

PROCESS

We employ an agile, lifecycle approach committed to continuous improvement. Just as important, transparency and communication are the foundation of every engagement. We drive regular meetings and communications to ensure that all parties remain aligned.

We love technology. For us, it's not just about checking a box. We don't just address the problems you're aware of, we dive into your systems and find the problems you didn't know you had.

We operate as one team. When you work with NetCraftsmen, you have access to our entire team of best-in-class professionals.

TECHNOLOGY

We partner with industry leaders to provide a scalable, modular, and highly secure tool set that allows us to customize each solution to best fit each client's needs. We have deep relationships with industry-leading OEMs including Cisco, VMware/VeloCloud, Palo Alto Networks, and HPE/Aruba. And, we are constantly on the lookout for new and innovative technologies.
